Making a Difference

First and foremost, on behalf of everyone at the Thunder Bay Art Gallery, I would like to express a huge thank you for thinking of us with regards to a placement for RKW. He's a gem to work with.

"...he genuinely loves helping out."

Second, I wanted to take this welcome opportunity to describe how important he's become to us here. In a short period of time, RKW has negotiated his way at the front desk (he's brilliant at managing incoming calls and his phone manner is excellent); he helps out with the exhibit installations and art class preparations (he

thrives in environments where here can make a noticeable difference in a specific period of time); and he's learned how to use Excel spreadsheets to track and manage our database of contacts.

The absolute best thing about having RKW on board with us here, though, is quite simple: he genuinely loves helping out. He's quick to learn new skills, extremely flexible with his schedule, and generous with his time. Gallery visitors enjoy his affable manner at reception and Gallery staff appreciate his top notch work ethic. What more could you ask for in an addition to the team?

We are very grateful to have RKW on our team. And thankful for the Ontario March of Dimes' Achieving Success Program for its involvement in making this happen. Thank you!

Warm regards,

Socorro Kelly
Development Officer

Editor's note: RKW asked that his name be removed from this letter.

Free is Good!

Are you interested in free software that can replace Microsoft Office? Well, there is a great product called OpenOffice. It is totally free of charge; no catches! It can easily replace Word,

Excel, Access and PowerPoint with Writer, Calc, Base, and Impress. It is designed by the makers of Java who are respectable software developers.

Worried about all your current Microsoft Office documents? Have no worries. OpenOffice will open and save your

documents using Microsoft's formats. You can also create PDF's directly within OpenOffice software without purchasing Adobe Acrobat or installing extra software. To find out more about how to get the software and to try it, check out our **free workshop April 30th**. Give us a call at 345-6595 for more information.
